Version: Jan. 2017

Principal Interests

Signal processing, machine learning, computational neuroscience, data science, biomedical engineering, research management, technical writing; applications to multimedia processing, medical devices, hearing rehabilitation and clinical trial design/analysis.

Academic Background

- 1991** **Ph.D. Electrical Engineering, University of Florida**, Gainesville, FL
Ph.D. research in signal processing under direction of Professor Jose C. Principe.
Dissertation title: *Temporal processing with neural networks—the development of the gamma model*.
- 1986** **M.Sc. Electrical Engineering, Eindhoven University of Technology**, Eindhoven, the Netherlands
Focus areas: medical engineering (thesis: intelligent alarms during anaesthesia) and digital communications.

Employment History

- 2012-pres.** **Professor, Eindhoven University of Technology, Signal Processing Systems Group** (EE dept.), Eindhoven, the Netherlands
- 1 day/week appointment; previous engagement: Research Fellow ('04-'11)
 - Director **BIASlab** research laboratory
 - Research on *Personalization of Medical Signal Processing Systems*
 - Teach graduate class on **Adaptive Information Processing**
 - Inaugural lecture: *In Situ Personalization of Signal Processing Systems* (at [youtube](#)), Sep. 2013
- 1999-pres.** **Principal Scientist, GN ReSound** (Philips Hearing Technologies until 2001), Eindhoven, the Netherlands
- Other engagements include: DSP Functional Leader ('11-pres.), Head DSP Research ('08-'11), Manager External Research ('01-'08), Technology Leader ('99-'01, Philips)

- Research PI on low-power signal processing technology for the next generation of digital hearing aids
- Leadership/management tasks include(d) all aspects of team and project management (teams of about 10 engineers); (responsible for) the corporate DSP research track, including the roadmap, budget and management; initiating and managing key studies at academic institutions and contract research organizations

1992-'99

Member Technical Staff, Sarnoff Corporation (today **SRI Int'l**), Princeton, NJ

- Previous engagement: Postdoctoral fellow ('92-'93)
- Research in advanced signal processing algorithms, initiating new technical and commercial thrusts, technical proposal writing and project management
- Principal investigator of funded projects on keyword spotting, digital hearing aids signal processing, speech enhancement and noise-robust speech recognition (co-PI)
- Co-initiated and developed signal processing in financial markets program at Sarnoff
- Member medical image processing research team. Funded projects include blind signal processing for breast mammography and perceptually optimized image coding

1987-'91

Research/Teaching Assistant, University of Florida, Gainesville, FL

- Taught and assisted in graduate classes in digital signal processing, control theory and computer architecture.

Special Achievements

Awards

- *Return-on-Performance Award*, for “technical work on Speech Enhancement technology”, Sarnoff Corporation, 1998
- *David Sarnoff Achievement Award*, for “leadership and technical contributions in the area of adaptive speech enhancement”, Sarnoff Corporation, 1997
- *David Sarnoff Event Focus Award* for “Winning Sarnoff’s First Commercial Contract for Speech Processing”, David Sarnoff Research Center, 1996
- *Presidential Recognition Award*, University of Florida, 1988
- *δ-Butterweck Award* (awards top GPA), Technical University Eindhoven, 1984

Invited Lectures (selection)

- University College London (UCL), “A Factor Graph Approach to Active Inference”, Nov. 2016
- Keynote lecture on “The Future of Hearing Aid personalization”, Cochlear/ReSound Event, Sep.2016
- WIC Mid-winter meeting on ‘Big Data and Data Analytics’, “Design of Signal Processing Algorithms through Probabilistic Inference”, Eindhoven, February 2016
- **CQM**, “In Situ Machine Learning for Signal Processing Systems”, Eindhoven, August 2015
- Radboud University Nijmegen, “Probabilistic Hearing Loss Compensation”, Nijmegen, March 2015
- INCAS3 Institute, “In Situ Personalization of Signal Processing Systems”, Assen, October 2014

- Leiden University Medical Center, New Year's keynote lecture on "Personalization of Medical Signal Processing Systems", Leiden, January 2014
- Int'l Symposium on Auditory and Audiological Research (ISAAR), "Is Hearing Aid Signal Processing ready for Machine Learning?", Nyborg (DK), August 2013
- Clinical Physicist Post-graduate school, "The Future of Hearing Aids", Amersfoort January 2013
- Delft Univ. of Technology, "Machine Learning for Hearing Aids Technology", Delft March 2012
- International Forum for Hearing Instrument Developers, "Bayesian Machine Learning for Hearing Aid Design, Fitting and Personalization", Oldenburg (Germany), June 2011
- University of Florida, "Machine Learning Trends in the Hearing Aids Industry", Gainesville, FL, April 2010
- SIKS Research School, "Gaussian mixture models and the EM Algorithm", Vught, NL, Dec 2008
- GN Nordic Audiology College, "Learning technology in hearing aids", Oslo, Norway, Sep 29, 2006
- University of Nijmegen, "Machine learning for hearing aids", Nijmegen, Netherlands, June 2004
- University of Florida, "DSP for modern industrial hearing aids", Gainesville, FL, January 2004
- International Forum for Hearing Aid Developers, "Warped-frequency filterbanks", Oldenburg, Germany, July 2003
- Keynote address "An industrial perspective on intelligent hearing aids" at 2nd McMaster-Gennum Workshop on Intelligent Hearing Instruments, Niagara-on-the-Lake, ON, Sep 2001
- NIDCA/NASA/VA Hearing Aids Improvement Conference, May 1997
- Lucent Technologies, Bell Laboratories, November 1996
- AT&T Research, Murray Hill, NJ, July 1996
- NSA (U.S. Government), June 1993
- Neural Network Workshop, Rutgers University, October 1992
- David Sarnoff Research Center, October 1991

Professional Activities (selection)

- 2012 - pres., **Associate Editor** for **IEEE Transactions on Neural Systems and Rehabilitation Engineering**
- 2012 - 2015, Invited member annual European Mathworks Advisory Board meetings
- 2010, Invited jury member for Open Technology Program (OTP) research proposals to Dutch Technology Foundation (STW)
- 11/2005 and 5/2006, Invited DSP expert on IWT (Flemish Institute for Science and Technology) panel to evaluate candidate PhD proposals, Brussels
- 5/2002, Organizer/chair special session 'DSP for Intelligent Hearing Aids', ICASSP 2002, Orlando, FL
- 1997-'98, Publicity chair, Neural Networks for Signal Processing Workshop, Amelia island, Florida (1997) and Cambridge, UK (1998)
- 1996 and 1998, Session chair Non-linear Systems Identification, ICASSP-96, Atlanta, GA (1996) and IEEE NNSP-98 Workshop, Cambridge, UK (1998)
- 1995-'98, (Elected) member of "IEEE Technical Committee on Neural Networks for Signal Processing Society"
- 1993, Invited researcher in government sponsored "Robust Speech Processing Workshop"
- 1986 - pres., Member of various professional societies (e.g. IEEE, INNS)

Refereed Publications

IEEE Transactions on Signal Processing, IEEE Transactions on Neural Networks, NeuroComput-

ing Journal, Neural Networks Journal, EURASIP Journal of Applied Signal Processing, Advances in Neural Information Processing Systems (NIPS) Conferences, ICASSP Conferences and others

Activities at Eindhoven Univ. of Technology (TU/e)

Research Funding

Research at TU/e focusses on applications of Bayesian machine learning to personalization of hearing aid algorithms.

- 2017 - 2021, together with dr. **Sander Stuijk** and prof. **Henk Corporaal**, ~**550K euro** supporting 3 PhD students, from **STW** to pursue research on **Autonomous Acoustic Systems** in the context of **energy-autonomous systems for IoT**.
- 2015 - 2019, together with dr. **Tjalling Tjalkens**, ~**500K euro** supporting 2 PhD students, from Dutch Technology Foundation **STW** to pursue research on **Data-driven Hearing Aids**.
- 2014 - 2018, ~**500K euro** supporting 2 PhD students at TU/e, from GN ReSound to support research on hearing aids personalization.
- 2006 - 2008, ~**130K euro** from GN ReSound to support 2 PDEng students at TU/e.
- 2006 - 2010, together with **Tom Heskes** and **Wouter Dreschler**, ~**650K euro** grant from **STW** to pursue further research on **Personalization of Hearing Aids through Bayesian Preference Elicitation**.

Teaching

- **2005 - pres.**, **Adaptive Information Processing**. Together with **dr.ir. Tjalling Tjalkens**, since spring 2005 I teach a core graduate class on the fundamentals of machine learning.
- **2011 - pres.**, guest lecturer for EE course **Development of (Electro)-technology** at TU/e
- 2004, Machine Learning. I organized a machine learning class (at GN ReSound premises) for TU/e graduate students and GN ReSound staff.

Student Supervision

1. 5/2017, Anouk van Diepen, M.Sc. thesis report, *A Probabilistic Modeling Approach to In-situ Trainable Gesture Recognition*
2. 6/2016, Wouter van Roosmalen, M.Sc. thesis project, *In-situ Design of Noise Reduction Algorithms*
3. 6/2016, Anouk van Diepen, M.Sc. internship, *Derivation and Implementation of Gaussssian Mixture Model in a Forney-style Factor Graph*
4. 10/2015, Pradeep Kumar, M.Sc. practical training project, *On Discrete-Valued Message Passing in Factor Graphs*
5. 10/2014, Rene Duijkers, M.Sc. thesis project, *A Factor Graph Approach to Hearing Loss Compensation*
6. 10/2014, Max Schoonderbeek, M.Sc. thesis project, *A Factor Graph Approach to Gaussian Process Preference Learning*
7. 6/2014, Art Senders, M.Sc. practical training project, *A Julia Toolbox for Forney-style Factor Graphs*
8. 4/2014, Robert Leenders, B.Sc. final project, *Gaussian Process based Preference Learning as a Classification Problem*
9. 1/2014, Rene Duijkers, M.Sc. practical training project, **Online Bayesian Spectral Tracking**

10. 12/2013, Brian Hutama Susilo, M.Sc. practical training project, *Automated Tuning Algorithm for Low-latency PC-based Audio Processing*
11. 8/2013, Zijian Xu, M.Sc. thesis project, ***Fast Design of Audio Processing Algorithms by Interactive Parameter Exploration***
12. 8/2013, Timur Bagautdinov, M.Sc. thesis project, ***A Machine Learning Framework for Bayesian Signal Processing***
13. 6/2013 Marno van der Maas, B.Sc. research project, *Browser-based Remote Control of Hearing Aids*
14. 12/2012 Timur Bagautdinov, traineeship project, ***A MATLAB/C++ toolbox for Factor Graph Modeling***
15. 6/2012, Maarten Thomassen, M.Sc. practical training project, *Spectral Audio Monitoring*
16. 4/2012, Joris Kraak, M.Sc.-thesis, ***Computer-Aided Algorithm Design for Audio Processing***
17. 10/2010, Joris Kraak, M.Sc. practical training project, *Optimization of a Spectral Noise Tracking Algorithm*
18. 8/2010, Jianfeng Li, M.Sc.-thesis, ***Acoustic scene-adaptive speech enhancement***
19. 8/2009, Jianfeng Li, M.Sc.-project, *Spatial defect clustering on semiconductor wafers using image processing techniques*
20. 9/2008, Xueru Zhang, P.D.Eng.-thesis, *Bayesian periodogram smoothing for speech enhancement*
21. 6/2008, Rene Besseling, M.Sc.-project, *Gaussian processes in Bekesy audiometry*
22. 8/2007, Serkan Ozer, M.Sc.-thesis, *Bayesian linear regression for user-adaptive hearing aids*
23. 6/2007, Ronnie van Loon, M.Sc.-thesis, *a Probabilistic Approach to Sound Classification*
24. 9/2006, Anton Vakrushev, P.D.Eng.-thesis, *Interactive machine learning for Personalization of hearing aid algorithms*
25. 10/2005, Jorik Caljouw, M.Sc. practical training on *PDA-based Interfacing to a real-time audio platform*
26. 10/2005, Paul Aelen, M.Sc. project, *Determination of the Intra-Uterine Pressure with electrodes on the abdomen*
27. 6/2005, Job Geurts, M.Sc. practical training on *A PC-based real-time simulation platform for evaluating hearing aid algorithms*

Member of Ph.D. Committee

1. 01/2017, Math Verstraelen, Ph.D., *The WaveCore - A Scalable Architecture for Real-time Audio Processing*, University of Twente.
2. 12/2016, Amir Jalalirad, Ph.D., *Supervised Learning through Feature-based Models*, TU Eindhoven
3. 6/2015, Yuan Zeng, Ph.D., *Distributed Speech Enhancement in Wireless Acoustic Sensor Networks*, TU Delft
4. 12/2013, Ingeborg Brons, Ph.D., *Perceptual evaluation of noise reduction in hearing aids*, University of Amsterdam
5. 9/2013, Jelte Vink, Ph.D., *Machine Learning for Efficient Object Recognition*, TU Eindhoven
6. 10/2011, Adriana Birlutiu, Ph.D., *Machine Learning for Pairwise Data*, University of Nijmegen
